RE: Underground Storage Tank Program

Dear Mr. Sampson:

It has come to the attention of the U.S. Environmental Protection Agency (EPA) Region 10 that you are the owner or operator of an underground storage tank(s) located at the following address: Eagles Stop n Save, 50 West Wapato Road, Wapato, Washington 98951. Under the Code of Federal Regulations (40 CFR §280.22) owners and operators of underground storage tanks (UST) are required to submit notification of the existence of these tanks to the U.S. EPA. Tanks on Indian lands are not exempt from the notification requirement. A check of our records has indicated that you have not yet fulfilled this requirement. Be advised that there is a possible \$10,000 fine for each tank for non-notification.

If your UST system is registered with the state, technically you are in compliance. However, you must still register the UST with the U.S. EPA Region 10. You may do so by completing the enclosed form and mailing it to the following by February 18, 1994:

Katherine M. Holt
U.S. EPA Region 10
1200 Sixth Avenue, WD-133
Seattle, WA 98101

If you have questions about notification or any other UST requirements, please call me at (206) 553-2580 or Geoff Keeler at (206) 553-1089.

Sincerely,

Katherine M. Holt

Katherine M. Holt
